

Men's Breakfast Report

As you know the Men's Breakfast started out cautiously optimistic last year, as all who participate were anticipating a return to some semblance of normalcy in our lives. Dad and I would always look forward to the monthly breakfasts as it was an opportunity for casual fellowship and meeting other members of the congregation.

At our breakfasts on September 18, 2021 and October 23, 2021 we conformed to the guidelines and recommendations of the Diocese and the Clark County Health Department. All food, drink and condiments provided were prepackaged/individual servings to mitigate potential spread of the virus. There was no usage of the kitchen for cooking food.

Approximately 10-15 people attended each breakfast.

Unfortunately that did not last long. With COVID cases on a steep incline and multiple positive cases at Grace, out of an abundance of caution we canceled subsequent breakfast gatherings (November & December joint breakfast) until further notice.

Once we are cleared by the diocese to resume in-person worship, we can explore resuming the Men's Breakfast, which I truly look forward to.

Also...since we were not able to have a joint breakfast in December, I'd like to propose we resume with one at the appropriate time.
