

Nevadans for the Common Good

The current priority for Nevadans for the Common Good is the passing of an ordinance to regulate short term rentals like VRBO and Air BNB in Clark County. NCG is recommending the following:

1. Short term rentals should be owner occupied while it is being rented.
2. Neighbors should have a voice and be involved in the approval process of short term rentals.
3. There is a need for stronger enforcement of the existing ordinances.

Currently affordable housing are units being bought up by corporations investing in short term rentals and is causing issues for quality of life on those who live in the neighborhoods.
