

Grace in the Desert

Usher Ministry Update 2022

The Usher Ministry is a completely volunteer ministry that provides usher services to all of the three services currently at Grace in the Desert. We also provide services for Weddings, Funerals, and special services upon request.

The usher staff undergo training for regular church service needs ie: Covid registration, providing bulletins to parishioners, assistance with seating and for those with special needs, parishioner counts, passing of the offering plates, and guidance during the Eucharist. One of the most important duties of the ushers is to monitor the chapel during church services to ensure the overall safety of the parishioners. They are aware of what to do in medical emergencies, fire emergencies, and possibility of active shooter situations. Your health and safety is very important to us.

We currently have volunteer positions available for all three church services and look forward to having you join us as a GITD usher. Please contact Ra Simmons or Walt Kadyk if interested.
